

## COLORFUL BEAUTIES APPEAL GREATLY TO VISITORS OF PALO DURO PARK SUNDAY

**Thousands Throng Park to View Canyons Sunday at Formal Opening; Cars From Many States Here.**

The greatest triumph in the history of 25 years of agitation for a state park in the Palo Duro Canyons occurred Sunday when more than 25,000 sightseers and park devotees from 14 states were present at the formal opening of the Palo Duro Park, 13 miles southeast of Canyon, and spent the day amid colorful scenery.

This park has been opened to the public through the efforts of the Canyon Chamber of Commerce, in conjunction with the Amarillo C. of C. and the Palo Duro Park

"A great step has been taken toward the establishment of a state park," said Mr. J. B. Elliston, president of the Canyon Chamber of Commerce and an enthusiastic worker for the park, "with the opening of the Palo Duro Park and we are more than highly pleased with the welcome that the movement has received from the people of this and neighboring states. It has been proved on the days that the canyons have been opened to the public and at the opening of the park Sunday that a state park is needed and that it is earnestly desired. All we have to do is stay in there and fight."

Association. The road leading to the section and the fences on either side of the road for the three-mile stretch were finished recently and opened by an order of the commissioners court. A cabin has been built at the entrance of the park and Ray V. Davis, noted photographer, has been appointed custodian.

Sunday was a distinct achievement for those of Canyon, and indeed, those of West Texas and the state who have been working steadily and earnestly to make the Palo Duro Canyons a state playground. Though years have been devoted to the project and it has long been a dream of West Texas, it is only in the last few years that tangible results have been achieved and the proposed park has gained statewide interest.

Last July the canyons were opened for one day and more than 8,000 people visited the spots of interest. In November the event was repeated and more than 10,000 persons attended. That the inhabitants of Texas and adjoining states really want a state park was clearly shown Sunday when that special day brought more than 25,000.

Mr. Davis, in commenting on the opening Sunday said, "Never have I seen such an orderly well behaved crowd as we had with us Sunday. Many of the groups brought lunches and stayed all day, but were very careful to clear away all trash before leaving. It was a pleasure to show them the grounds."

The boy scouts also assisted in aiding the visitors in parking cars, and in seeing the beauty spots. Sheriff John Fry and his department were on hand to offer their services when needed.

### Interesting Program

Though President J. A. Hill was unable to be present and make his scheduled talk, being called to Austin suddenly to appear before the legislature, speeches were made by prominent men of this locality. O. V. Vernon of the Amarillo Chamber of Commerce gave a talk on the major park plan of Texas. J. B. Elliston, L. N. George and Ray V. Davis made explanatory talks on the local phase of the park plan.

### No Charge

No admission charge will be made and the park is open to the public at all times as long as the Chamber of Commerce has charge of it. "This is the people's park," said Mr. Elliston. "It belongs to everybody and it is up to them to let the state and the nation know whether or not they want to make it a state playground. Come and enjoy it, plan picnics and outings to acquaint others with its beauties."

Special days will be set aside, according to Mr. Elliston, for any and all organizations, schools, companies or clubs desiring to bring a group for an outing and everything that is in the power of the C. of C. and the association will be done to aid them. On these days the services of volunteer guides will be available if the organization will let the local

### WEST TEXAS GAS CO. ADDS NEW FIXTURES TO OFFICE

A new Bristol Recording Thermometer has been recently installed by the West Texas Gas company in the local office. The thermometer records accurately the temperature for the entire day and night for a period of a week at a time. This is recorded on a chart which will be kept in the office of the gas company for future reference. By checking this recording, Mr. Robbins says that the temperature of one month may be compared with that of any previous month or with the same month of the year previous.

The local office has also added a new suite of wicker furniture.

Mrs. W. I. Gamewell's mother, Mrs. Norville of Corsicana, is visiting her daughter here for several weeks.

Chamber of Commerce know a few days prior to the date of the outing.

## J. F. LOVE HAS UNUSUAL RECORD IN PIG RAISING

J. F. Love, who lives two miles east of Canyon, has what he believes is a good record in pig raising.

Mr. Love owns a Hampshire sow that was farrowed August 30 of last year. She is one of a litter of 10, and was the only one of the litter kept and raised on the farm.

She farrowed nine pigs May 13 of this year when she was eight months, 13 days old. Mr. Love is proud of the record she has made.

Irving Gamewell was low man in match play, making a 76 on 18 holes of play.

The Canyon crew was in good form to trim the Clovis team. The members of the local teams were forced to shoot an 88 score in order to qualify for the next matched play, which will be with Hereford on May 31. There were two 88 scores in the first 13 low men of the Canyon club.

## JIM WEBB IS MEMBER CHICAGO U. FACULTY

Jim Webb, former superintendent of the Canyon Public Schools, has been named as a member of the Chicago University faculty. He will teach in the mathematics department. Since leaving Canyon several years ago Mr. Webb has been doing graduate work in the University of Chicago.

Do your shopping in Canyon.

James E. Creighton, wanted here in connection with the robbery of the First National Bank on the morning of January 10 last, was captured by officers in Joplin, Mo., Wednesday morning. He was arrested on a charge of murder when a young man had been killed in Webb City, Mo., last Saturday night. Creighton is said to have confessed to the shooting and also admitted that he was wanted in connection with the robbery of a Hastings, Neb., bank a short time ago. Together with Jim Thomas, Creighton was being sought for the robbery here when the Hastings bank was robbed and Thomas caught after he had been wounded in a running gun battle with officers.

According to reports received here Creighton, who is known to be a "bad" man and a killer, when arrested at Joplin, had three loaded guns about him. Details as to the arrest were not learned.

It is said that the shooting in Webb City Saturday night resulted from a car wreck in which Creighton and Coyne Hatten, son of a wealthy druggist in Webb City, collided. An argument is said to have resulted from the crash. Creighton has confessed to jerking a gun from his pocket in a fit of anger and shooting Hatten, whom he did not know.

Several weeks ago a card bearing Creighton's picture and finger print identifications were mailed from Canyon to all sheriffs in the United States, giving a full description of the man wanted and stating that he had in his possession a machine gun.

As he is held on charge of murder in Missouri, local officers hold no hope of extraditing him from the state. A confession from him they hope will clear up the mystery shrouding the hold-up here. It was reported that he had been seen in the vicinity of El Paso several times since the robbery of the First National Bank and two trips had been made to look for him there.

## Closing Exercises Of Canyon High Held Friday Eve

Jarrett, dean of the West Texas Teachers College, delivered the graduating address to 42 members of the senior class of the Canyon High School at the high school auditorium Friday evening at 8 o'clock. A crowd which filled the auditorium beyond seating capacity was present to witness the closing exercises of the school year, when graduates were presented with diplomas by Dan F. Sanders, president of the school board.

Four honor students of the school were announced Friday evening. Oressa Hastings was valedictorian of the graduating class and awarded the girls' scholarship honors. Herbert Slack was boys' honor student, with the highest average of the graduating class, and was awarded the boys' scholarship honors. Annie Johnson was the salutatorian of the class having the second highest scholastic standing of the seniors.

Nancy Strain, won the coveted honor of the entire school, being named for the Balfour Honor Plaque. Her name will be engraved on the plaque which hangs in the high school building. This selection is based on scholarship, achievement and loyalty.

**THE LEGISLATURE ENDS**By CLYDE W. WARWICK  
(Representative 123rd District.)

AUSTIN, May 20. (Special).—Unless something unforeseen happens, the 42nd Legislature will come to a close on Friday, May 22nd. Sentiment is strong to remain in session until May 29th, but this change will likely not be made in adjournment date.

Many things may happen between the time this article is written and the closing hours of the legislature. Most of the appropriation bills will be pending and free conference reports will not be adopted until the closing hours of the legislature if the usual procedure is followed. Furthermore, free conference reports on the highly controversial measures will probably be held for the final wind up of this session.

Governor Edgar E. Witt in a signed statement this week highly praised the 42nd Legislature as being one of the most orderly and hard working that he had ever observed. He believed that the membership is to be commended for the efficiency with which the business has been handled this session.

The bond issue is dead for another two years. The measure lacked four votes of being submitted Wednesday of last week. Two years ago the bond issue failed by just one vote. In many districts over the State this year campaigns were made by Senators and Representatives either for or against the bond issue, therefore, the defeat of the bond issue this session comes more closely as the voice of the voters.

Our readers will probably know before this is printed the fate of congressional redistricting. It has been clearly a fight between East Texas and West Texas as to which would receive the new congressmen allotted to the State. West Texas claims two and South Texas claims one by right of the federal census. East Texas maintains that the discovery of the oil field had robbed West Texas of much population and therefore West Texas was not entitled to but one new congressman. The fight may continue until the close of the legislature. Senator Clint C. Small is trying to push through a compromise bill to redistrict the State. Legislative redistricting is dead for the session.

East Texas pulled another one on West Texas by adding an amendment to the pink boll worm refund bill an appropriation of a half-million to repay counties who were under the stock tick quarantine law. No machinery was set up in this amendment and those who have studied it claim East Texas has no chance to collect this half-million dollars even should it be declared constitutional. The pink boll worm feature for West Texas was enacted to carry out the provisions of an existing law.

Governor Sterling is being severely criticized for signing the repeal of the Sunday closing bill, a sixty-year-old statute. This bill provides for local option and any city or town may regulate its Sunday shows by an election. The law was being evaded in practically every county in the State; and was therefore, of no further use.

The truck and bus bills passed early in the session will emerge from the free conferences before this is printed. It is predicted that both the Senate and House will

adopt these free conference reports. The heavy cotton and oil trucks are very unpopular over the State. The charges are made that these bills were written in the interest of the railroads. Be that as it may, there is a widespread demand on the part of those who pay the taxes to protect the highway from the excessive load abuse.

Representative Tarwater of Plainview is again in the lime-light as a friend of the farmer. He succeeded in pushing through the tax on oleomargarine in spite of the opposition of the Cattle Raisers Association of the Southwest. Only 22c worth of fat in every beef is used in the manufacture of oleomargarine, therefore, it was rather ridiculous that the cattle raisers should take such a decided stand against the interest of the dairy-men who are usually small farmers.

The Senate has defeated the delinquent tax bill which would have made possible the collection of about fifteen million dollars of taxes in a much easier method. In fact, Texas now had no adequate delinquent tax law. It is a patch work and should be amended.

Governor Sterling is expected to sign the bill prohibiting towns and counties from abusing the power to issue warrants without the consent of the tax payers. If it is necessary to raise money for public purposes, the proper method is by bond issue.

Jouett Shouse, chairman of the Democratic National Executive committee, visited the Legislature last week and delivered a very strong address in which he proclaimed the weaknesses of the Hoover administration and the bright prospects for the return of the Democrats to the national power. He is the last of a number of prominent Democrats to address the Legislature during this session.

**THE INDIAN PROBLEM**

There has been an Indian problem in the United States ever since its earliest settlement, but that problem is being solved by the gradual absorption of the Red Men into our general population, according to Secretary Wilbur of the Department of the Interior.

We have about 350,000 persons of Indian blood in the entire country, of whom one-third are in Oklahoma. The rest are widely scattered among 26 states, but even the reservation Indians are intermarrying with the white population and are rapidly assuming the white man's manner of living. A notable exception to this general trend is seen among the Navajos of Arizona, who have a reservation as large as the State of New Jersey and still hold aloof from the paleface.

It is the policy of the government to encourage the remaining Indians to obtain education and training with a view to their giving up reservation life and taking their places among the independent citizens of the country. There are maintained 203 day and boarding schools for Indian pupils, where instruction, food, lodging and clothing are furnished free by Uncle Sam. These are privileges granted to no other element of our population.

Secretary Wilbur declares that it has become obvious that the Red Man eventually must lose his identity and become as the rest of us, and adds: "From a sentimental standpoint there is much to regret in this fact, but it is none the less inevitable."

**W. T. Graduates Like College Seal Brassware**

These useful pieces of brass include book-ends, ash trays, desk calendars, table hot mats, letter openers, playing card trays, pen trays, and letter cases. The thing that makes the students like them is that they have the Seal of W. T. S. T. C. on them. Priced from 50c to \$2.50.

Other suggestions are perfumes, vanities, Baby Ben clocks, Conklin Endura fountain pens and pencils.

**J. J. Walker Drug Store****CARE OF THE EYES**

Many persons become blind, or go through life with impaired vision because of neglect of the most ordinary precautions, according to Dr. Steelsmith, Iowa's health commissioner, who gives some good advice in a recent article.

He declares that the putting of a drop of silver solution into the eyes of an infant at birth is a most important matter, as five or six different kinds of germs which may cause partial or complete blindness are liable to gain access to the infant's eyes at that time.

It is also important to keep sharp or pointed instruments, such as scissors, pencils and dangerously shaped toys, away from very young children, and any foreign body which happens to get into the eyes should be given immediate attention. No inflammation of the eyes, however slight, should be neglected.

With respect to cross-eyes, Dr. Steelsmith advises that steps be taken to correct this condition very early, and he declares that a child no more than a year old may be taught to wear glasses for straightening the squint, which will in most cases effect a permanent correction. He warns against the use of ten-cent store glasses or any glasses not prescribed after expert examination of the eyes.

Reading in a poor light or in a bad position strains the eyes unduly, while glare is also harmful and should be avoided as much as possible.

Considering what a handicap poor eyesight places upon the individual, it is really strange that the simple precautions recommended by health authorities are so frequently neglected.

**NOT FOUND IN WASTE BASKET**

The editor of the Texoma (Okla.) Times upon noticing fully 50 per cent of the direct by mail advertising was discarded by the recipient at the postoffice, pens this message to the local advertisers:

"Advertisements placed in the home town paper find their way to every home in the community, and well scattered over the trade territory—and you won't find the home town paper in the waste baskets in the lobby.

"The people of the town and community are interested in the home town paper. They subscribe for it, and when a copy is missed they come to the office for another copy. It is read from cover to cover, laid to one side, read again, and another member of the family reads it, and it is discussed in the homes, and so are the advertisements. The home paper

### MR. RAY COFER, Canyon, Texas.

Dear Mr. Cofer:

I understand that you expect to raise quite a number of chicks again this year. You are showing good judgment in staying right in the poultry business as substantially as ever, for in the opinion of nearly all poultry authorities there will be a shortage of eggs and poultry meat within the next two years.

You certainly will want to raise every chick possible and at the lowest cost. I don't know whether or not you have ever used NUTRENA Chick Mash before, but there isn't a chick starter made in the United States more wholesome, more nutritious or more economical than NUTRENA.

NUTRENA Chick Mash is the feed that makes "Pert Little Pullets and Foxy Little Roosters". It is sacked in the Golden Bag.

NUTRENA Chick Mash is a complete all-mash ration for baby chicks up to eight to ten weeks of age—nothing else is needed to grow chicks rapidly and economically except water and grit. Simple, easy-to-follow feeding directions are in every bag.

Every sack of NUTRENA Chick Mash is protected with a Seal of Purity sewn in at the top of the sack, which is your guarantee that it is made from sweet, sound, wholesome ingredients, properly balanced to promote the quickest and cheapest growth.

I hope you will try NUTRENA Chick Mash on all your hatches this spring. If you do, I know that you will raise the best chicks you have ever had and will be more than pleased with them. After you have used it, write and let me know what success you had with it.

Here's wishing you a successful poultry season this spring.

Yours very truly,

### A WONDERFUL OPENING

If there were any doubters as to the drawing power of Palo Duro Canyon they should have been on hand Sunday when the public as a whole got its first glimpse of this wonderful scenic site.

Twenty-five thousand persons, by actual count registered Sunday to inspect the 640 acre tract in the Canyon which has been opened to the public through the efforts of the Canyon Chamber of Commerce and the Palo Duro Park Association. Visitors were present from 14 states.

The attendance bespeaks the keen public interest in the park project and is an indication of great crowds which would visit Palo Duro on every Sunday throughout the year if the canyon could be opened on a lavish scale. Convert Palo Duro into a state park and within five years it would be second only to Carlsbad Cavern as a show spot of the entire Southwest.

The Park Association recruited 25,000 supporters Sunday to its campaign to have such a playground established.—Amarillo Daily News.

## W. T. WILL PLAY MAJOR ROLE AT TEACHERS MEET

STATE CONVENTION WILL BE HELD IN AMARILLO FOR 3 DAYS IN NOVEMBER

President J. A. Hill was in Fort Worth recently working with the president of the State Teachers Association and Superintendent W. A. McIntosh of the Amarillo Public Schools on the program for the annual meeting of the Association which is to be held in Amarillo on Thursday, Friday and Saturday of Thanksgiving week next November.

The faculty here is making extensive preparations for W. T. participation in the entertainment of the thousands of teachers who will be at the meeting, through a general committee headed by S. H. Condon. It is felt in W. T. that this college is almost as much a host to the convention as Amarillo, due to the fact that W. T. is the only teachers' college of the region.

W. T. is expecting to furnish several numbers on the general

program of the convention, including orchestral numbers, solos, and physical education numbers. It is also expected to furnish musical entertainment at various hotels and other eating places during the convention. In addition, the Buffalo Band will give many street programs.

One big event of the time for W. T. will be the giant ex-student banquet, which is to be held Friday night of that week in the Crystal Ballroom of the Herring Hotel. Edna Graham, at present acting dean of women in the college, is chairman of the faculty committee on the banquet preparations. Outstanding speakers, men and women of national repute, and ex-students from all over the country are expected to be there.

In addition there will most probably be several exhibits given by some of the W. T. departments, such as art, home economics, manual training, and agriculture exhibits, besides a considerable showing from the Museum of the Panhandle Plains Historical Society.

According to President Hill, it is possible that the Teachers College Section of the convention will be invited to meet in Canyon.

## COMMENCEMENT PAGEANT DRAWS LARGE CROWD

COLORFUL MAY FESTIVAL IS PUT ON BY PHYSICAL EDUCATION GIRLS

"Bit o' This—Bit o' That," the annual pageant of the Physical Education Department for Women, in the auditorium of the Administration Building, was presented to a full house Monday night. The pageant was planned and directed by Mrs. Ruby Barksdale O'Keefe, assisted by Miss Ruth Cross.

The program was divided into five main parts. The first, in the Garden of an Old Mansion, was an old-fashioned polka, featuring ladies in the garden and a variety of similar dances. The second division included a studio scene in which Pierrot and Pierrette, and Raggedy Ann and Andy appeared. A special feature of this division was a solo dance, The Doll Dance, by Beth Pitts.

The third division, Spring Moods, carried out the idea of spring with such dances as Fairy's Revel, Caprice, and Lady Balloon. The fourth division included a group of novelties, among them Broadway Hoofers and High Flyers, with their participants dressed in costumes entirely appropriate to their type of dance. The closing scene, Washday in Mammy's Backyard, included a group of skits with an atmosphere quite different from the preceding scenes.

Approximately one hundred girls took part in the pageant, one of the best that has been presented by the department. The costumes, novel and appropriate, were designed and made by the girls taking part in the pageant.

## Miss Walker Is to Return by June 3 From Long Cruise

This following letter was recently received at the college this week from Miss Darthula Walker, head of the geography department in W. T. who has been on leave of absence this past year, traveling with the fifth annual Around-the-World Cruise of the Floating University. It was written on board the R. M. S. "Franconia," May 4, 1931.

"This Monday morning we are speeding along toward Honolulu. We are hoping to reach there about 1 o'clock today. We have a rather strong wind which may delay us some, but at any rate I think we shall reach there some time in the afternoon.

"We left Yokohama a week ago yesterday. We rather hated to pull away, but we were a tried lot, for we had some strenuous sightseeing. It was well we had a week of sailing so we could get rested for our next stop.

"We had two Saturdays last week. As you know we had to make an adjustment when we got to the International Date Line. We celebrated Meridian Day with some sport contests in the afternoon, and with dramatics and dancing in the evening. All were rested and ready for a good time.

"We feel that we are getting near home as we approach Hawaii. We shall be in Honolulu for about 24 hours; then go to Hilo, leaving there Wednesday evening. We then turn toward California. We stop there a day and start for the Canal and on to New York.

"This boat goes on to England and then for a Scandinavian cruise. Wish I could just stay on for that, but of course, I shall have run my course, and will have to stop.

"Hope everything is going well in Canyon. All are busy trying to get ready for the end now, I suppose. I cannot realize that the time is so near. The latter part of the school term always slips away so rapidly."

En route to and from Morse the band stopped to play for the Borger High School, the Gruver townspeople and the Panhandle townspeople.

The concert given at Borger was at the high school building; the Gruver program was an evening performance given at the high school building, and the Panhandle program was a street concert.

The special numbers which were given in the programs were readings by Madeline Cox, piano solos by George Heard, violin solos by Meredith Ashby and whistling solos by Joe Hill, Jr.

The best food is always the cheapest in the long run... and you just can't beat MERIT STARTING MASH. It contains plenty of Cod Liver Oil!

IN congratulating the winners in the great Camel contest we want at the same time to thank most cordially the approximately million men and women who displayed their friendly interest by sending in an entry.

We wish also to thank the millions of smokers throughout the country for the appreciation they are showing for our new Humidor Pack as is evidenced by the notable increase in the sale of Camel cigarettes.

By means of this dust-proof, germ-proof,

moisture-proof Cellophane wrapping the rich aroma and full flavor of choice Turkish and mellow Domestic tobaccos have been air-sealed in Camels for your enjoyment.

If you have not tried Camels in the Humidor Pack all we ask is that you switch over to this brand for one day.

After you have learned how much milder, how much cooler, how much more enjoyable it is to smoke a perfectly conditioned fresh cigarette, go back to the harsh hotness of stale cigarettes if you can.

## Senior Sneak Day Celebrated With Trip to Canyons

Thursday afternoon about 6 o'clock the W. T. seniors of '31 claimed their right to the annual Sneak Day, and "sneaked" to Harding's Ranch, about 15 miles northeast of town in the Palo Duro Canyon.

Fishing, exploring and other forms of amusements soon worked up an appetite, and a little after sundown Armine Horton became the center of attraction, because she happened to have charge of the menu, and, as chef, proved to be more than efficient.

Following supper the crowd, about 60 in number, gathered in the pavilion and for a while listened to some primitive jazz by fragments of an orchestra. Then ensued a short and snappy, but very effective program.

Mr. Ray Daniels, representing the W. T. exes as president of the Ex-Students' Association, spoke to the gathering, delivering a most excellent and highly appreciated address. Georgia Whittenburg, a member of the present graduating class, gave a reading, followed by Brown and Brown, who sang a duet.

Bartow Johnson, president of the Class of '31, introduced several of the married seniors, for short talks. Then followed a series of "dedicated" numbers by the orchestra, "Ain't She Sweet" being played in honor of Armine Horton, whose birthday it was, and "You're Driving Me Crazy" for the "eats" committee.

After the program the crowd danced and played games. With the exception of four boys who went fishing, they all began to retire at an early hour. The four fishers must have used dynamite, for about 4:30 a. m. Friday they returned to camp with such a huge string that they had to awaken everyone on the grounds to show them. (Editor's note: "Tis said that Heck Ward tried his hands and feet at being a fish, and lost his toes in the attempt.)

Friday was the day of days for seniors, who infested the whole ranch. Fishing was the most popular pastime, with the exception of breakfasting and lunching.

Except for the four night riders, the Sneak Day was a huge success. They proved to be a detriment to all associates of Old Mr. Sandman, but none of them can brag of sleep, either.

Under the direction of Wallace R. Clark, who will also sing the tenor parts in the production, "The Elijah," an oratorio with music by Felix Mendelssohn, will be presented by members of the College Chorus on next Monday evening, as the annual commencement concert.

The chorus has been working on the oratorio at intervals all year, and now have it ready for first-class presentation. It is one of the most famous of this great musician's famous oratorios, and is beautifully adapted to use as a commencement musical.

Solo parts in "The Elijah" are being taken as usual by local people. Ada V. Clark, head of the music in the W. T. Training School, will sing the soprano role. Bertha Paltent, a junior in the college, will be alto soloist. The title role, that of The Elijah, will be sung by William R. Dawes, baritone. Mr. Dawes is a senior in the college, majoring in voice, who will receive his degree with this year's class.

### UNDERGOES OPERATION

Mrs. T. V. Reeves, head of the Bureau of Public Service at the college, underwent a major operation at the Northwest Texas Hospital in Amarillo Thursday of last week. She is reported to be resting nicely at present.

## Neville Wrenn Wins National Contest Award

Through a letter written to President J. A. Hill, as head of the school she represented, Neville Wrenn, student assistant in the chemistry department here, who will receive her B. S. degree with the graduating class next week, was informed last week that she had won \$500 in the American Chemical Society's National Prize Essay Contest, with her paper, "Helium and its Relation to Industry."

This is the second time within the last five years that this prize has been awarded to W. T. chemistry students, Ivy Parker having won it in 1927 with her essay on "The Relation of Chemistry to Health and Disease."

In accord with the Society's wish that the award be presented publicly to the winner, the prize check of \$500 will be given to Miss Wrenn by President Hill at the Commencement exercises May 27.

The letter telling of Miss Wrenn's success in the contest was received last week. In it the Chemical Society has extended congratulations to the college on the success of the student, and has expressed gratitude to the W. T. for "co-operation given this educational venture."

The winner's essay will be published in the next issue of the Journal of Chemical Education, which will appear sometime early in the fall.

Miss Wrenn wrote her essay in February, using the Helium Plant in Amarillo for objective study. She says that she was able to write it only with the aid of C. W. Seibel of the Helium Plant, there, who gave her many references, and explained and illustrated for her the industrial prospects of this resource.

The essay was sent in just before the contest closed March 1. The Prize Essay Contest was inaugurated in 1923 by Mr. and Mrs. Francis P. Garvan, of New York City and the American Chemical Society. Its fundamental purpose is to provide a means for students to acquire a better general appreciation of chemistry. Three separate contests are conducted by

## Dean Green Writes She Will Be Glad To Return to W. T.

According to a letter recently received from Mrs. Geraldine Green, dean of women of W. T., who has been in New York City on a leave of absence this past year, she is "expecting to be back in W. T. about the first of June."

Mrs. Green's letter contained the following appreciation of this institution and this country: "While I dislike to think that I am now leaving New York with no expectation of coming back for periods of study, I shall be glad to get back to work where people seem to be more genuine, and the wide open spaces more conducive to real living."

**IN LUBBOCK HOSPITAL**  
J. A. Woodfin is in the hospital at Lubbock following an operation performed last week. He is reported to be resting nicely and expects to return home the first part of next week.

There are still a few people left who can recall when a girl promised to marry a man instead of threatening to do so.

A Minnesota judge has sentenced a young robber to go to bed every night at 10 p. m. for five years. But isn't this another under-cover job?

Students who cheat at examinations, feel mighty smart to have cheated themselves out of the education their parents paid for.

the Society with funds for administration and prizes provided by Mr. and Mrs. Garvan. These contests are open to (1) high school students, (2) normal and teachers' college students, and (3) college freshmen.

Miss Wrenn, who won the award in the teachers' college division of the contests, has been an outstanding student throughout her years in W. T., where she has done all of her college work, majoring in chemistry. For the last two years, 24 consecutive months, she has been student assistant in that department.

Miss Wrenn's home is at Memphis, Texas.
